Letter of Solidarity

Dear colleagues,

This fall after one year of unsuccessful negotiations with your university administration you are approaching a strike. We, the delegates of the regional conference (*Landesbezirksfachbereichskonferenz 5*) of the Division for Education, Sciences and Research of the union ver.di Hessen, want to proclaim our solidarity.

Parental leave, maternity protection and sick pay are not equivalent to socialism, but are self-evident principles.

The attempt of the university administration to keep International students from striking with (false) information about their visa restriction is scandalous!

We wish you a lot of energy, courage and endurance with your struggles!

In solidarity,

The Delegates!
